

“Molecular Allergy Research at the Paul-Ehrlich-Institute, Germany”

Dr. Andrea Wangorsch

Vice President Research Group 1
Paul-Ehrlich-Institut, Langen, Germany

**Date : October 10 (Thursday), 2024
17:20 – 18:10**

Venue : Lecture room #1, Aobayama-Commons

The Paul-Ehrlich-Institut (PEI), the German Federal Institute for Vaccines and Biomedicines, is responsible for the research, assessment, and marketing authorization of biomedicines for human use and immunological veterinary medicinal products. Dr. Andrea Wangorsch will introduce these activities of the PEI, and also her research about allergen identification and characterization.
